

LAND CLAIMS COMMISSION

1875 - 1887

SERIES LIST

These are the records of the Land Claims Commission (LCC) which was set up by Sir Arthur Gordon to determine the validity of land claims (land sales). Misunderstandings on the selling and purchasing of land had become a problem in the colony, and the Commission was put in place to make a final ruling on these matters. These records continue to be one of our most requested set of records.
